

# West Valley IB Newsletter

## IB MEMES!

going to prank mr may when he checks CAS

Me telling people I'm in ib **Vs** Me doing ib work

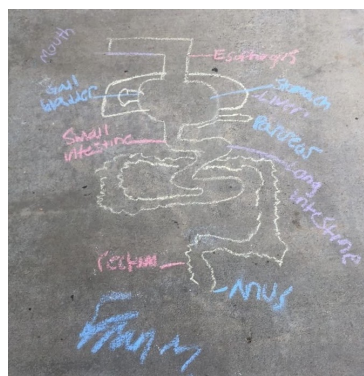

## CAS Highlight:

On September 1, 2021 four West Valley IB DP students, Lilly, Aaron, Katelynn, and Emily, all went bowling together. Emily (pictured to the left) competitively bowls and taught her peers how to bowl for Service hours and her peers were able to gain Activity hours. Going bowling together was a good way for a group of friends to do their CAS, spend time with

each other, and have fun all at once!

## Class Highlight:

Biology HL Yr 2 students are currently learning about human physiology and started with the digestive system. After watching a video about it, they went outside and got to drawing on the floor with chalk. It wasn't much, but it was a simple way for students to get familiar with the digestive system and learn how to draw it the way they may need to for the IB exam. It also gave them an opportunity to have a little field trip and

break from usual class routine.

## News:

Stamford American International School (SAIS), an IB school in Singapore, class of 2021 has achieved a 100% passing rate of IB exams. Their graduating class consisted of 80 people, with 20% of students scoring an overall diploma score of at least 40! SAIS utilizes a student-first approach that develops syllabuses around the needs of students, offers different pathways, and a supportive environment in order to unlock a student's full potential. These are things West Valley's IB Program hopes to offer in order to hopefully achieve similar success!
