IB MEMES!

Mr. El looking for rainbow road

Me acting like everything is fine like I haven't restarted my extended essay a fourth time

CAS Highlight:

IB Club participated in West Valley's Annual Boat Race on October 15, 2021. Students built the boat over the span of several meetings both after school and during lunch. Students had a lot of fun building the boat and memories together! Even though our boat had haters (Mr. Valenzuela), we were victorious and came

in third place. Moreover, our boat became the slowest victory in West Valley Boat Race history!

Class Highlight:

IB Spanish HL and SL students helped to set up an altar for Día de los Muertos to honor former

West Valley students who have passed away. It was decorated with various things such as sugar skulls, candles, marigolds, and pictures of the deceased. Additionally, West Valley's Yes I Can program made a poster for the altar of decorated sugar skulls.

IB Student and Teacher of the Month:

IB Student: **Katelynn Brennan**
"I've noticed she's been doing her best in biology and as a result she's been improving. She's also funny."

IB Teacher: **Ms. Sotelo**
"She is a really flexible teacher when it comes to organization and timing of assignments. She is also really kind and enjoys hearing about our opinions and feedback on academic and personal related things."
